Joint venture in Cina per sistemi laser

Il gruppo El.En. ha costituito in Cina una joint venture per la distribuzione e la produzione di sistemi laser per applicazioni industriali. Il partner della joint venture è la Wuhan Chutian Industrial Laser Equipment.

The image is a small, low-resolution thumbnail of a financial table, likely from a newspaper's market section. It contains columns of text and numbers, representing stock prices, market indices, and other financial data. The text is too small to be legible, but the layout is typical of a financial table with multiple columns and rows of data.
